Stellarware is well known for its advanced, web-based employer database, known as the Employer Registry. Incorporated into the Employer Registry is our comprehensive Outreach Module, the perfect tool for performing effective employer outreach and driving compliance.

• Maintains complete employer profiles, including contact info • Offers an effective, two-way communication channel • Provides State user access and customized reports on-demand • Automatically tracks outreach activities & monitors compliance • Creates outreach campaigns for staff to work • Records notes and progress for every employer

OUR LATEST SOLUTION: THE LUMP SUM PAYMENT MODULE

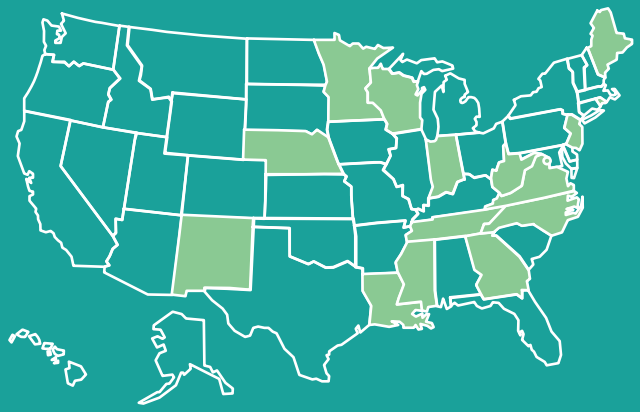

In partnership with the Child Support Lien Network (CSLN), hosted by the State of Rhode Island, we are proud to announce the introduction of our Lump Sum Payment Module. Stellarware will utilize your agency's existing obligor file [or other State-provided child support case file], loading it into our Lump Sum Database for employers across the State to conduct data matching via our secure portal, using an Interactive Lookup or Batch upload process. Agencies are immediately notified whenever matches are made while the appropriate documents to employers [income payers] are electronically generated for collection purposes.
